DETAILED ACTION
EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Patrick S. Yoder on March 27, 2008.

The application has been amended as follows:

In the first claim 3, line 1, please change "-- The system of claim 2 --" to "-- The system of claim 1 --".

In the second claim 3, line 1, please change "-- 3. (canceled) --" to "-- 4. (canceled) --".

In claim 5, line 1, please change "-- The system of claim 4 --" to "-- The system of claim 3 --".

In claim 19, lines 3-4, please delete "-- wherein the electrical parameter comprises a voltage or a current across a transformer --".

In claim 19, line 8, please change "-- coupling a normal winding of a transformer -" to "-- coupling a normal winding of the transformer --".

2. The following is an examiner's statement of reasons for allowance:

Claims 1, 3, 5, 8-10, 12-15, and 18 are allowed because, as noted in

the Office action dated October 12, 2007, none of the prior art of record discloses or suggests the parameter comprising a voltage across the fault winding of the transformer, or a current across a secondary winding, in combination with the remaining claimed features.

Claims 19, 21, and 22 are allowed because none of the prior art of record discloses or suggests coupling a normal winding of the transformer to the first and second converters during a first mode in which the converters are connected in series in response to a sensed voltage or current across the transformer, and coupling the normal winding and a fault winding to the first and second converters during a second mode in which the converters are connected in parallel in response to the sensed voltage or current, in combination with the remaining claimed features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

3. Applicant's arguments, see Remarks, filed January 14, 2008, with respect to the objections to claims 1, 9, and 18, have been fully considered and are persuasive. The objections have been withdrawn.
